DETAILED ACTION

1. Claims 11, 14-16, 19 and 20 remain withdrawn from consideration as drawn to a non-elected invention.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1, 4-6, 9 and 10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The phrase "enabling a person . . . omission from a digital receipt" is not clearly supported.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1, 4-6, 9 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, lines 7-8 the phrase "enabling a person . . . omission from a digital receipt" is not clear.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 1, 4-6, 9 and 10, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Matsumori, US 6,179,206.

Matsumori discloses, e.g. Figs. 1-8, a method of processing a purchase transaction data on a retail terminal, e.g. 16, where the transaction data may be edited, e.g. claim 18. Matsumori does not disclose omission of the data. To have provided omission of data from the editing process of Matsumori would have been obvious to one of ordinary skill in the art. The motivation for having done such is that omitting data in an editing process has been common knowledge in the data art.
